Vision Statement:

To provide innovative solutions to our customer's power and lighting needs.

Mission Statement:

NRG Industrial is a prominent electrical services, labour and equipment hire provider to mining, industrial and commercial customers nationally, with innovative applications in the solar space.

Our mission is to continually improve our products and services to meet our customer's needs, allowing our business to grow while enjoying a harmonious, safe and rewarding work environment.

Quality Policy:

It is NRG Industrial's policy to ensure that work carried out within the scope of our business complies with our Quality Management System, Australian Standards, Codes of Practice and statutory requirements.

NRG Industrial is committed to promoting the use of a process based approach to quality management and that decisions made within the company are considered using risk-based thinking. NRG Industrial will ensure resources are made available to achieve the outputs required against our customers' requirements.

NRG Industrial is committed to the identification, evaluation, reporting of non-conformances, management review and communication to all workers to ensure quality objectives are met and procedures are effective in promoting continual improvement.

The QMS and supporting policy is endorsed by the Director of NRG Industrial and reviewed annually. The policy is communicated to our employees through the company induction and is displayed at NRG Industrial offices and available online for the public to access.

Signed

Grantley Jack
Director
NRG Industrial Pty Ltd
